CORRESPONDING MEMBERS OF CZECHOSLOVAK ACADEMY OF AGRICULTURAL SCIENCES --
 Prague, Zemedelske Noviny, 13 Jan 53

[The following information, supplementing OO-W-26234, contains biographic
 data on corresponding members of the Czechoslovak Academy of Agricultural Sciences
 (Ceskoslovenska Akademie Zemedelskych Ved), which was formally established in
 Prague on 13 January 1953.]

Engr Antonin Andert. Born 1913 in Vinarice. Scientific worker in the
 Institute for Mechanization of Agriculture (Ustav pro mechanisici zemedelstvi
 in Vokovice.

Prof Dr Eduard Baudys. Born 1887 in Horice, in the foothills of the
 Krkonose Mountains. Professor at the College of Agriculture (Vysoke skole
 zemedelske) in Brno. Has published numerous works in the field of phyto-
 pathology and protection of plants, and is credited with the development of
 this science and its practical application.

Svatopluk Brabec, state award winner. Born 1913 in Sobesice near Brno.
 Director of the Institute for Fruit Research (Vyzkumneho ustavu ovocnarskeho) in
 Holovousy, Jicin Okres. Former gardener and researcher.

Engr Jiri Foltyn. Born 1926 in Rakovnik. Occupies the chair of Plant
 Protection in the College of Agriculture in Prague, and is prorektor of the
 school. Graduate of the Moscow Agricultural Academy imeni Timiryazev
 (Timiryazevova Akademi v Moskve).

Engr Jan Holienka. Born 1926 in Lysice, Zilina Okres. Deputy director of the Institute for Plant Production (Ustavu pro vyrobu rostlinnou) in Ruzyne. Graduate of the Moscow Agricultural Academy imeni Timiryazev.

Engr Dr Alois Hrubes. Born 1904 in Brno. Director of the Agricultural Department in the office of the President of the Republic. Outstanding specialist in the field of animal husbandry.

Engr Dr Ladislav Hruska. Born 1913 in Sudomerice, Tyn nad Vltavou Okres. Director of the Research Institute for Plant Production (Vyzkumneho ustavu pro vyrobu rostlinnou) in Ruzyne. Known for his successful experiments in originating new varieties of potatoes and winter-sown beets.

Prof Vincenc Jelinek, M.D. Born 1896 in Trest. Director of the pathological and Anatomical Institute of the College of Agriculture in Brno. Specializes in veterinary medicine.

Jaroslav Kabrhel. Born 1922 in Nemcice, Litomysl Okres. Director of the Department of Czechoslovak Economy in the Central Political School of the Czechoslovak Communist Party (Ustredni Politicke Skoly KSC) in Prague. A practical political worker in the field of agricultural economy, especially outstanding in the field of agriculture within the framework of Marxism-Leninism.

Engr Dr Vaclav Kas. Born 1899 in Prague. Lecturer at the College of Agriculture in Brno. Specializes in the field of soil microbiology and has published a large number of scientific works as well as works in popular science.

Prof Engr Dr Vladimir Kosil. Born 1898 in Prague. Rector of the College of Agriculture in Prague. Has published several works on agronomy.

Prof Dr Engr Jiri Kotatko. Born 1899 in Turnov. Dean of the Economic Faculty of the College of Agriculture in Prague. Wrote several works on Soviet agriculture before World War II. Has continued writing and has taken an active part in land reform, settlement of the border regions, and establishment of the JZD (Unified Agricultural Cooperatives).

Engr Dr Jan Krblich. Born 1911 in Zabori nad Labem, Kutna Hora Okres. Director of the Institute for Economics and the Organization of Socialist Agricultural Enterprises (Ustavu ekonomiky a organizace socialistickych zemedelskych zavodu) in Prague. Has published several works in these fields.

Prof Engr Dr Alois Kroulik. Born 1888 in Melnice. Dean of the Agronomy Faculty in the College of Agriculture in Prague. An outstanding scientist in the field of agricultural microbiology and its application.

Engr Jan Kveton. Born 1921 in Prague. Outstanding worker in the Institute for the Mechanization of Agriculture in Vokovice. A scientific worker in the field of research and mechanization with a great deal of initiative.

Engr Drahomir Machacek. Born 1921 in Klamos, Novy Bydov Okres. Deputy dean of the Mechanization Faculty of the College of Agriculture in Prague. Graduate of the Institute of Mechanization and Electrification in Moscow.

Engr Dr Stanislav Najmr. Born 1898 in Bohusovice nad Ohri, Litomerice Okres. Director of the Agronomy Department of the Research Institute for Plant Production in Prague.

Dr Miroslav Parizek, M.D. Born 1898 in Tisnov. Lecturer at the College of Agriculture in Brno, specializing in hog-breeding. Has published several works on the subject.

Engr Dr Bohumil Penka, state award winner. Born 1914 in Voderady u Boskovic. Director of the sugar refinery in Posenice. Has done scientific research in sugar-beet development and production.

Engr Miroslav Preininger. Born 1927 in Brnany near Litomerice. Deputy director of the chief administration of MTS in the Ministry of Agriculture. Graduate of the Institute of Mechanization and Electrification in Moscow.

Engr Vaclav Rosam. Born 1897 in Unhost. Department director in the Institute of Agricultural Economics (Ustavu zemedelske ekonomie) in Prague. Outstanding worker in the field of communal farming and has done organized research into natural climatic conditions.

Engr Vaclav Rybacek. Born 1920 in Cila, Rokycany Okres. Assistant dean of the Agronomy Faculty in the College of Agriculture in Prague. Outstanding specialist in the cultivation of sugar beets and hops; has lectured on these subjects and has been active in introducing their culture in Bulgaria and Albania.

Engr Ladislav Sobotka. Born 1921 in Cesky Brod. Director of the Planning Department of the Ministry of Agriculture. Graduate of the School of Economics in the Moscow Agricultural Academy imeni Timiryazev.

Engr Dr Ladislav Smerha. Born 1912 in Bystrice, Benesov Okres near Prague. Scientific worker in the Research Institute for Animal Husbandry (Vyzkumny ustav pro vyrobu zivocisnou) in Prague. Author of a number of works in his field.

Engr Jaroslav Sulc. Born 1920 in Prague. Director of the Tractor Department in the Mechanization Faculty of the College of Agriculture in Prague.

Engr Dr Boleslav Tomsik. Born 1907 in Jihlavka, Trest Okres. Professor at the College of Agriculture in Brno. Specialist in apiculture and sericulture. Has published a number of scientific works in these fields.

Engr Dr Jaroslav Zakopal. Born 1910 in Napajedla, Gottwaldov Okres. Director of the Phytopathology Department of the Research Institute for Plant Production in Prague. Has written a number of scientific and specialized works in his field.

CHARTER MEMBERS OF SLOVAK ACADEMY OF SCIENCES -- Bratislava, Pravda, 24 Jun 53

On 23 June 1953, the Slovak Board of Commissioners named the following persons as charter members of the newly established SAV (Slovenska Akademie Vied, Slovak Academy of Sciences), in accordance with Law No 22 of the SNR (Slovenska Narodna Rada, Slovak National Council).

Prof Dr Jan Bakos. Professor of Semitic philology and culture at the Philosophy Faculty of Slovak University in Bratislava. He is a specialist in oriental philosophy.

Dr Klement Blaskovic. First deputy to the president of the SAV and lecturer in the field of microbiology at the Medical Faculty of Slovak University. Was awarded the State Prize in 1951 for his isolation of the influenza virus. Has published several works on microbiology and is a member of the CSAV (Ceskoslovenska Akademie Ved, Czechoslovak Academy of Sciences).

CONFIDENTIAL

Dr Ivan Brauner. First vice-president of the SAV, charter member of the CSAZ (Ceskoslovenskej akademie podohospodarskej, Czechoslovak Academy of Agricultural Sciences), and chairman of the Agricultural Section of the SAV. Director of Bioveta, in Bratislava, an enterprise for the manufacture of vaccines for use by veterinarians. A practicing veterinary who later worked in the Serological Institute, he was awarded the State Prize in 1952 for his discoveries in the field of vaccines.

Prof Dr Engr Jozef Cabelka. Second vice-president of the SAV and president of the Technical Sciences Section. Professor of mechanics at the Slovak Technical College (Slovenskej Vysokej skole technickej) in Bratislava and director of the Metallurgical Research Institute (Vyzkumneho ustavu svaracskeho). Author of a number of specialized and scientific works, some of which have been awarded prizes by foreign countries. Awarded the State Prize in 1952 for his research work in metallurgy.

Prof Dr Ladislav Derer. Professor of Internal medicine at Medical Faculty of Slovak University and director of the I [First?] Internal [Medicine] Clinic at the Medical Faculty in Bratislava. Specializes in pathology of the digestive tract, diseases of the liver, and naemapoiesis.

Prof Dr Juraj Hronec. Professor of mathematics at the Natural Sciences Faculty of Slovak University. Specializes in the field of differential and integral calculus.

Academician Igor Hrusovsky. Chairman of the Social Sciences Section of the SAV, corresponding member of the CSAV, rector of Slovak University, and dean of the Philosophy Faculty. Specializes in the history of philosophy and gnosiology. One of the first philosophers in Czechoslovakia to become oriented to Marxism.

Prof Dr Dionyz Ilkovic. Corresponding member of the CSAV and professor of physics at the Slovak Technical College in Bratislava. Specializes in polarography and has published several scientific works in this field. Has delineated the mathematical connection between the intensity of current, concentration, and the essentials of drop mercury electrodes, which has become known in domestic and scientific circles as the "Ilkovic equation."

Prof Dr Ondrej Pavlik. President of the SAV. Dean of the Pedagogy Faculty in Bratislava. One of the first educators to make full use of Soviet educational experiences, he has been instrumental in activating the school reform in Czechoslovakia. Has published several works on this subject and has organized adult education work on this new basis.

Prof Dr Stefan Schwarz. Prorector of the Slovak Technical College in Bratislava and corresponding member of the CSAV. Occupies the Chair of Mathematics. Has published a number of works in his field of algebra and the binomial theorem.

Dr Ivan Stanek. Chairman of the Biological and Medical Section of the SAV, chairman of the Historical Embryology Institute (Historicko-embryologickeho ustavu) of the Medical Faculty of Slovak University, and director of the SAV laboratory for experimental cytology. Specializes in histology and embryology with special attention to problems of regeneration of the nervous system. Is currently concerned with the problem of histophysiological elements of connective tissue and the reticulo-endothelial system.
